

THE MOST INTENSIVE  
STUDY TOUR YOU CAN GET!

Thrilling and exciting  
experience in Arctic region

# WINTER SCHOOL

26th March – 2nd April 2018

ECO<sup>2</sup> – Arctic Climate  
Safety and Security

**BIOACADEMY**

ecosystem for innovation

# Welcome to Finnish Learning Adventure!

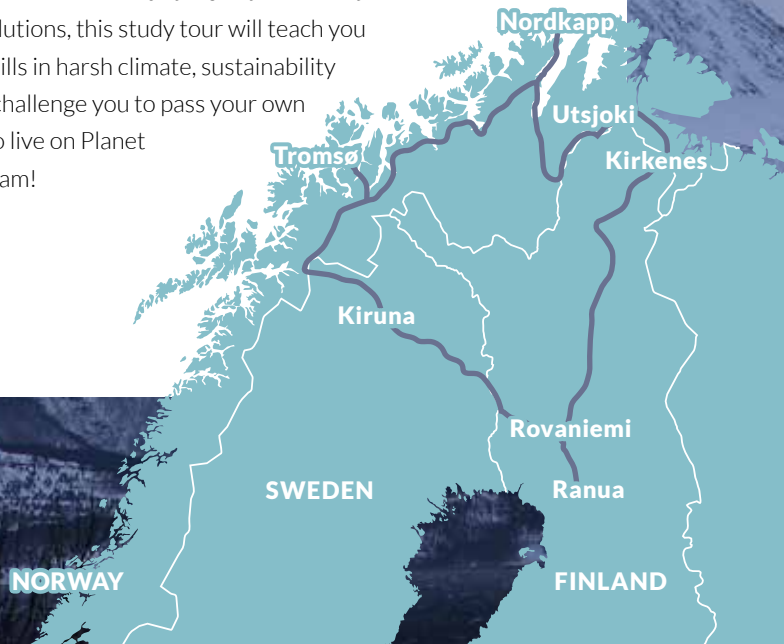

A phenomenon based learning gives you a holistic insight of the real situation in Arctic region. The course places you in the heart of ongoing fight against climate change. It provides practical examples of National strategies on combating and adapting to climate change.

Moreover, it enlightens examples of best practices from Finnish society and economic adaptation which influence on success and competitiveness in changing climatic conditions. Combining innovatively economy and ecology we get much more.

## Forests and arctic fragile wilderness are in focus!

Numerous experts' lectures, industrial visits and interaction with authorities take you to the journey of real life solutions.

Through three Nordic countries with different real life solutions, this study tour will teach you survival skills in harsh climate, sustainability skills and challenge you to pass your own "License to live on Planet Earth" -exam!
